The four Reviews re-published by Messrs. SCOTT & CO., are generally considered as the Great Reviews, and Blackwood has been justly placed in the same rank. They may be read and studied with advantage by the people of this country, of every creed and party.

☞ BLACKWOOD is unusually attractive at this time, to Americans not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borcke, a German officer, chief-of-staff to Gen. J. E. B. Stuart, of the Confederate army.

GOUT SPECIFIC!
An Effectual and Speedy Remedy
FOR THE
GOUT, RHEUMATISM, SCIATICA,
LUMBAGO & NEURALGIA.

Farnan's Specific has stood the test of years, and its beneficial influence, as well as the extraordinary rapidity with which it acts on the system and removes pain and the cause of pain—that is to say, the condition of the blood and stomach which produced the affliction—can be witnessed to by thousands. The cure is as COMPLETE as it is RAPID, and, strengthened by the testimonies of a large body of patients who have received almost INSTANTANEOUS relief after all other remedies have failed, the proprietor has the utmost confidence in offering it to the notice of the public. To the constitution it is harmless; to the fluids of the human frame it adds a healthy impetus; to the system generally it is invigorating to a degree unparalleled; and both sexes may take it to equal advantage. A dose taken about once a month, operates most effectually in preventing a return of the complaint.

CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE. Vice-Chancellor Sir W. Page Wood stated publicly in court that Dr J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See the TIMES, July 13th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and JT Davenport, that he had received information to the effect that the only remedy of any service for Cholera was Chlorodyne. See LANCET, Dec. 31, 1864.

Dr J. Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866—'Is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.'

Dr J. Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

Dr J. Collis Browne's Chlorodyne is a certain cure in Cholera, Dysentery, Diarrhœa, Colics, &c.

Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.' From A. Monkgomery, Esq., late Inspector of Hospitals, Bombay—'Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other medicines had failed.'

Dr. J. Collis Browne's Chlorodyne.—CAUTION—None genuine without the words 'Dr. J. Collis Browne's Chlorodyne' on the Government stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. T. Davenport, 33 Great Russell Street, Bloomsbury London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, 1s 1½; 2s 9d; 4s 6d and 11s.

English and Continental Echoes.

We continue to-day our compilations from late European journals. A large deputation of Conservatives, workingmen and others, was introduced on the 29th April to Lord Derby, and addressed both by him and by Mr Disraeli. Lord Derby began by a well deserved compliment to Mr Disraeli's management and tact, and then proceeded to object to the classification of workingmen as a separate class, which was the strong point of the Tory party last session. He identified himself and his colleagues with workingmen. 'We are all of us working men. Some of us work with our brains, some with our tongues, and some with our hands.' No doubt Mr Disraeli belonged chiefly to the first class, Lord Derby, as politician, at least, chiefly to the second, and his audience mostly to the third. But for the moment Lord Derby was the workingman *par excellence*, the workingman actually at work. He repeated his objections to a 'hard and fast' line created by a figure,—to which, however, he adheres in the counties. He described the qualities desirable in a voter—steadiness, frugality, &c., and thought they would be secured by personal payment of rates and a residence clause,—whether one or two years was matter for fair discussion,—and he professed his inability to see any fine in the demand of an extra payment from the compound householder. Mr Disraeli also spoke, saying, in allusion to Mr Baine's letter, that he had always noticed, 'when a party takes to letter-writing, it is in difficulties,' and astutely remarking that he and his friends should not be 'disheartened by such ebullitions.' If he had said they would not be too much elated, it would have been more to the purpose. When all the railways in England are insolvent the Board of Trade will probably offer a plan for putting them on a sound footing. The shareholders of the London and Brighton Company have been inquiring into the position of their line, and find that whereas in 1857 they earned £446,000 on a capital of £7,797,000, they in 1866 earned only £503,060 on a capital of £16,462,191. Moreover, the Directors have strongly recommended the purchase of three other lines, without explaining that on two of them the Directors themselves and their nominees were the only shareholders. The Committee, moreover, state—its chairman being Sir Charles Jackson, formerly, we believe, a Judge of the Supreme Court, Calcutta—that the report for the last half year underestimates the payments due to preferential shareholders by 170,000, that amount having been charged to capital under different items. Moreover, there is some uncertainty about the temporary loans, which in June, 1866, were £615,906, and in December had slipped out of the accounts, all very pleasant facts for shareholders whose property has dropped in eighteen months from £102 to £59. It only remains that the debenture account should be pronounced wrong to make the London and Brighton a model railway. Mr Hodsman has made a curious voyage in a balloon from Dublin to a place near Appleby, crossing the channel at night in a pouring rain which made the balloon so heavy that it nearly sank into the sea. Mr Hodsman only kept it up by letting down the grapnel and keeping his hand on the rope, by which means he could tell whenever he touched the sea, and throwing out sand whenever he found he was descending. Once, when benumbed with cold and fatigue, he fell asleep for a few minutes, he descended to within six feet of the surface, when he instantly threw out 28lb. of ballast, which sent him up again to the height of a mile, and fortunately for him above the rain clouds, on which the bright moon cast the flying shadow of the balloon. At last he saw what he thought was a light, and soon after square compartments that turned out to be fields, and then a town, which turned out to be Appleby. This was at 3 a. m. He got the grapnel caught in a wood, and was assisted to pull the balloon into the open by some young men who were fortunately returning from a late Appleby ball, and who at first fancied he might be a "bogle." "Bogles," however, even near Appleby, are not so confidently believed in as formerly, and Mr Hodsman was kindly extricated from his uncomfortable position, and breakfasted with great *eclat* at Dufton, a village about two miles from Appleby. Mr Walpole has remitted the remainder of the sentence passed on Toomer, the man unjustly convicted of rape and sentenced by Justice Shee to fifteen years' penal servitde. In his letter to Toomer's father announcing the fact, Mr Walpole, through Lord Belmore, says he has acted after "an attentive review of all the circumstances of this doubtful case," and "had regard to the long deliberation of the jury, their recommendation to mercy, and the punishment the prisoner had undergone." In other words, Mr Walpole thinks nine months of penal servitude sufficient penalty for *not* committing a rape. The truth is, Mr Walpole hates a profligate of Toomer's class, till he can hardly bring himself to care whether he was legally punished or not, and but for the public outcry would never have interfered. The *Oswestry Advertiser* asserts that a lady of considerable property, Miss Lloyd, of Laques, has served notices of ejectment on all her tenants in two counties, because their wives and daughters will wear crinolines, which Miss Lloyd disapproves. Miss Lloyd has not, however, ordered that all her tenants shall wear the family livery, or that their daughters shall put on mobcaps and aprons, and her decree, therefore, must be considered a very moderate exortion of the rights of property. One of the Earls of Crawford centuries ago once ordered that none of his tenants' wives and daughters should wear anything at all, and was obeyed—as Miss Lloyd will be by her new farmers. Feudalism is slow to change. The Irish Government has grievously affronted Mr Isaac Butt. He was named by the Fenian prisoners to conduct their defence, and accepted the office, but the Government only offer him £25 as a retaining fee, and £3 3s. as a refresher for each day of the trial. Mr Butt refuses to accept these fees as utterly inadequate, and prefers to defend the prisoners at his own cost, which, as the trials will last weeks and his practice is large, will not be slight. We do not see that Government is bound to select the highest members of the Bar to defend men accused of sedition, but if they do select them they should pay them as they would if retained on their own side. No other Government on earth, except perhaps the American, would pay sixpence. The annual Volunteer Review came off on Easter Monday at Dover. The men were brigaded for the first time with soldiers of the Line, and did very well indeed, especially the artillerymen. An old volunteer points out that a great opportunity was lost of trying to work a military telegraph, and, we may add, of testing departments as well as men. Next Easter we trust 30,000 men will be camped for two days near Dover, fed by the Commissariat, and lodged by the Quartermaster-General's staff. If an enemy were landing, Volunteers could not live in hotels, or be fed by civil provisioners, or left with one supply of cartridges. The organization for each 25,000 men ought to be as complete as if they were going to take the field next week. The North-Eastern Railway Company seem to have beaten their men. By recalling heaps of dismissed drivers, and engaging anybody who knew anything about an engine, they have kept their traffic going, and signified that after April they will take none of those who struck back into employ—rather a harsh resolve. The *Train* confirms the suspicion we expressed last week, that the men really struck in a rage at the harsh language of the foreman, who called one of them a 'fool.' The Great Eastern has yielded without fighting, giving the Brighton terms—10 hours, 7s. 6d. a day as maximum pay, and right of appeal on supersession; and the workmen express themselves most warmly about the courtesy of the Superintendent. If this feeling spread, we shall have soldiers and sailors objecting to be damned, and then where will the world and the Duke of Cambridge be? Mr Hodgson Pratt has done a very clever and a very kindly thing. He has made arrangements with the English and French railways, with the Imperial Commissioners, and with certain provisioners, under which 200 workmen per week may go to Paris, live in a pleasant hall, spend a week sight-seeing, and come back again for 30s. All they will have to purchase for themselves is their food and an Exhibition ticket, and Mr Pratt estimates the total cost at about £3 for the week.

Singular Divorce Suit.

(From the Chicago Tribune, May 6.)

A bill for divorce has been filed in the Circuit Court by Catherine against John Spellman which presents many unusual features. The first peculiarity is that the petition asks not only for a divorce but an injunction to restrain the husband in the use of $30,000 worth of property, and a writ, or *ne exeat republica*, retaining him under bonds to remain in his adopted State—Illinois.

A greater peculiarity is presented in the bill itself. If the petition be true (and being under oath it is so to be considered), the case presents in brief the history of several checkered lives. The bill alleges that the parties were married during the year 1830, at Meguglemuch, in the county of Mayo, Ireland. They lived together until some day in May, 1855. The five years of their married life resulted in the birth of three children—Patrick P Spellman, now aged thirty-five; Bridget Craig (wife of Owen Craig), now thirty-four years of age, and Michael Spellman, aged thirty-two years. About the time of the birth of the last child it is charged that the defendant absconded from his native soil, taking his way to some land unknown to his family. Two years after his wife received a letter from John, remitting to her twenty dollars. Eighteen months after she acknowledges the receipt of fifteen dollars accredited to her faithless John by the hand of his brother Patrick. This last remittance was made from New York. It is charged in this connection that the respondent, having left his home and three small children and his wife, leaving but twenty dollars in money, and about fifty dollars worth of furniture, the amount was insufficient to the support of the family.

No further communication was had between the two branches of the family until the year 1856. In the year 1856 the deserted wife says she came to New York. She stayed there some time and migrated to Philadelphia, as she claims, in search of her husband and a livelihood. She afterwards came to this county, and on the twelfth day of October, 1865, her eldest son saw his father in the county of Stephenson, Illinois, a wealthy farmer, with a second wife and a family of two children to assist him in the performance of his agricultural labors. The second wife is charged to be one Sarah Austin, known as Sarah Spellman or Mrs. Spellman, and with her he is said to have lived twenty-eight years, two children having been the result of the bigamous connection.

This discovery being made, a correspondence ensued between the parties interested in the first marriage and the violater of the marital bond. It resulted in his visiting Philadelphia, where he met (as is charged) his wife, on the thirteenth day of January, 1866. He made protest of renewed affection—of a revived love—and she alleges that, believing his protestations, she consented, on condition that he would have never more ought to do with Sarah Austin, to pardon him his delinquencies and receive him to a husband's share in her affection and home. A further moving reason to this condonement is alleged to be the fact that the defendant had property and the wife had none.

Having reunited their fortunes the parties lived together after a separation of over thirty years for two score days, and then, it is alleged, the respondent proposed to return to his farm in Stephenson county, to close up his affairs and sell off his property. Confiding in his integrity, his wife charges that she let him begone, and since that time she never saw 'hide nor hair' of him. She does charge, however, that her best information leads her to believe that he returned to Sarah Austin, known publicly as his wife, with whom she charges he committed adultery, and is now living in a state of open violation of the law.

The defendant in this case is represented to be a man of means. His estate is valued at $30,000, yielding an annual income of $3,000. He is said to own a section and a quarter of cultivated land in Stephenson county, with almost any quantity of necessary farming utensils, cattle, &c.

The bill is supported by the affidavits of the two sons of the parties, and the injunction and writ both issued.

WAGER OF BATTLE—Mr O'Neill, writing to the *Herald of Peace*, says that he thinks the readers of that journal will be interested in hearing that a poor old man died in Birmingham on Friday, February 18, one event of whose history forms an important mark in the progress of civilisation in England; especially as relating to the old barbarous mode of settling disputes and trying causes by the "wager of battle." The deceased William Ashford was the last person who challenged in an English court, to meet, in single combat, a man whom he had accused as the murderer of his sister. The circumstances attending the murder and the subsequent trials at Warwick and London are most peculiar, and seem more like a romantic tale of the middle ages than a real case occurring in your own day. On the 26th of May, 1817, a beautiful young woman named Mary Ashford, in her 20th year, went to a dance at Erdington without proper protection. She left the festive scene at a late hour accompanied by a young man named Abraham Thornton, a farmer's son in the neighborhood. They were last seen talking together at a stile near the place, but next morning she was found dead in a pit of water; and there fearful evidences that she was abused, violated and murdered. General suspicion pointing to Thornton, he was arrested and tried for murder at Warwick assizes in August; but though strong circumstantial evidence was against him, the defence, which was an alibi, obtained a verdict of "not guilty." The feeling of surprise and indignation at his acquittal was so intense that a new trial was called for, and an appeal was entered against the verdict by William Ashford, the brother and next of kin to the murdered girl. Thornton was again apprehended and sent to London in November to be tried before Lord Ellenborough and the full court of Queen's Bench. Instead of regular defence by arguments, evidences, and witnesses, Thornton boldly defied all present jurisdiction, and claimed his right, according to ancient custom, to challenge his accuser to fight him and decide his innocence or guilt by the "wager of battle." His answer to the question of the court was, "Not guilty, and I am ready to defend the same by my body." He accompanied these words by the old act of taking off his glove and throwing it down upon the floor of the court. At this stage of the proceedings William Ashford who was in court, actually came forward and was about to accept the challenge by picking up the glove, when he was kept back by those about him, not only because single combat was so foreign to the spirit and custom of the age but also because of the striking inequality in the appearance and strength of the accuser and accused, for William Ashford was but a youth, weak and small in stature, while Thornton, the supposed murderer, was a powerful man. With what wonder did the assembly and indeed the nation ask, "Can a prisoner insist on so obsolete a mode of trial in such a time of light as the nineteenth century? But with greater wonder and regret was the judgment of the court received in April, 1818, that the law of England was in favor of the "wager of battle:" that the old laws sanctioning it had never been repealed; and that though this mode of trial had become obsolete, it must still be allowed. Thornton was thereupon discharged, and being set at liberty left this country for America, where he died in obscurity.

Facts vs Theories.

"Give me a place to rest my lever on," says Archimedes, "and I will move the world." 'Give me pure and unadulterated drugs," says Medicus of the olden time, "and I will cure disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on, either to move the world or cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filters and charms of the "evil eye," &c.

But these latter days have borne unto us something more than even superstition and its crew ever dreamt of in their maddest philosophy. In these days of practical science, what was theory of yesterday is fact to-day, and all the old time notions become as bubbles in the sun, and burst and break with every breath we draw.

Let Archimedes shoulder his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so sorely needs, for we have them at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr Maggiel, the finest materials known in the medical profession are obtainable by any one. His Bilious, Dyspeptic, and Diarrhea Pills stand unrivalled and his Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think MAGGIEL'S Pills and Salve are the wonder of this century, and we are happy in the thought that many others of our brethren of the craft agree with us. We would earnestly counsel that all families provide themselves with Dr Maggiel's Preparations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.* 27*

A New and Grand Epoch in Medicine.—Dr. MAGGIEL is the founder of a new Medical System. The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so his wonderful and all healing Salve. These two great specifics of the Doctor There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that **Maggiel's Bilious, Dyspeptic and Diarrhea Pills** cure where all others fail. While for Burns Scalds, Chilblains, Cuts, and all abrasions of the skin **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 1 Pine street, New York, and all Druggists, at 25 cents per box.

CHLORODYNE.

DR. J. COLLIS BROWNE'S CHLORODYNE. Vice-Chancellor Sir W. Page Wood stated publicly in court that Dr J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See the TIMES, July 13th, 1864.

Dr J. Collis Browne's Chlorodyne—The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport, that he had received information to the effect that the only remedy of any service for Cholera was Chlorodyne. See LANCET, Dec. 31, 1864.

Dr J. Collis Browne's Chlorodyne—Extract from MEDICAL TIMES, Jan 12th, 1866—'Is prescribed by scores of orthodox medical practioners. Of course it would not be thus singularly popular did it not supply a want and fill a place.'

Dr J. Collis Browne's Chlorodyne is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, &c.

Dr J. Collis Browne's Chlorodyne is a certain cure in Cholera, Dysentery, Diarrhœa, Colics, &c.

Dr. J. Collis Browne's Chlorodyne—Extract from the General Board of Health, London, as to its efficacy in Cholera—'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.' From A. Montgomery, Esq., late Inspector of Hospitals, Bombay—'Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other medicines had failed.'

Dr. J. Collis Browne's Chlorodyne.—CAUTION—None genuine without the words 'Dr. J. Collis Browne's Chlorodyne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle. Sole Manufacturer J. T. Davenport, 33 Great Russell Street, Bloomsbury London. The immense demand enables the proprietors to reduce the price; it is now sold in bottles, 1s 1½; 2s 9d; 4s 6d and 11s.

Titus vs. the Corporation.

The importance of this case renders a fuller report of the proceedings than we furnished yesterday essentially necessary in order that the facts may be fully understood by those of our citizens who have not before been made acquainted with them:

The supposed evidence of ratification of the contract between Titus and the Corporation was considered by the Judge to be insufficient, among other grounds, as not being under the corporate seal; and to have held it sufficient would obviously have been to authorize an evasion of the 23th clause of the Corporation Act, which directs "that the Council shall enter into all contracts under the same (i. e., the corporate) seal, which shall be affixed on all contracts by virtue of an order of the Council." It was further objected, and the Judge thought the objection sound, that the contract was originally invalid as not having the corporate seal affixed to it, or any order made by the Council for that purpose, as required by this section.

There was the further defect that the contract was entered into by Mr Harris, the Mayor, on behalf of the Council, instead of being made by the Council, as this section plainly requires. The agreement further specified that Titus should be paid pursuant to a City By-law, sections 8 and 9, when the work should be done—that is, or would appear to be, out of funds to be provided by the View street lot owners, the agreement being silent as to any liability of the Council, and the Corporation accordingly were to give, and did give him, every facility for recovering his money from them (i. e., the lot owners).

Counsel were fully heard on both sides on the points, and the Judge offered them to nonsuit, or to turn the matter into a special case; so as to reserve leave for Mr. Ring to move to enter a verdict for Titus for the full amount, in case on full argument it should appear that the defendants' points were untenable, which Mr. Ring and Mr. McCreight both declined.

Mr. Ring then wished to address the jury on the facts; but the Judge held he had no right to do so, as there was no evidence to go to the jury.

N. B.—See Hodges vs. Audrum, 24 Law Journal Exchequer, p. 257—"Where at the close of the plaintiff's case at *Nisi Prius* the Judge rules that there is no evidence to go to the jury, the plaintiff's counsel is not entitled to sum up under the 17 and 18 Victoria, c. 125, sect. 18," decided by three Judges against one (Baron Platt). Baron Parke there remarks, "If at the end of the plaintiff's case the Judge considers that there is no evidence for the consideration of the jury, the plaintiff may be nonsuited. It is in case of the plaintiff that this course should be taken, otherwise it would be the duty of the Judge to *direct a verdict for the defendant.*

Court of Assize.

(Before Chief Justice Needham.)

WEDNESDAY, June 26.

The Court met at 10 a.m. The Grand Jury having been empaneled, His Lordship proceeded to address them, congratulating them upon the few cases that would come before them.

The Grand Jury then retired, returning shortly with a true bill against Robert Irvine, for obtaining goods under false pretences and forgery, and ignoring the bill against H. Marrack, for manslaughter.

The Grand Jury were then discharged, and Robert Irvine pleading guilty to the indictment, was sentenced to two years' imprisonment with hard labor.

The Court then adjourned *sine die.*

The following are the names of the Grand Jurors: R. Burnaby (foreman), C. B. Young, F. M. Roscoe, J. Moore, Jas. A. Raymur, E. Marvin, G. C. Wigham, Thomas Lowe, C. W. Wallace, A. T. Elliott, Rout Harvey, J. F. Davies, W. Charles, A. J. Langley, J. R Stewart, P. M. Backus, W. McCutchan, A. R. Green, Lumley Franklin, W. C. Ward, J. H. Turner.

NORTH PACIFIC FUR COMPANY.—At San Francisco, the certificate of incorporation of the North Pacific Fur Company has been filed. The objects of the corporation are to buy and sell goods, wares, and merchandise of every description; to carry on trade with the North Pacific Coast and Islands; to carry on the business of mining, and to purchase and sell mines in the Pacific States and Territories, and within any of the possessions of the United States on the Pacific Coast: to purchase and sell real estate in said States and Territories, and possessions; to manufacture woolen, cotton and other goods; and to build, purchase and maintain wharves and docks, and carry on the business of wharfing and docking at such places as may be thought proper within said States, Territories and possessions, and to establish and maintain warehouses and houses of trade wherever deemed necessary for carrying on any of the business aforesaid. The capital stock of the company is $1,000,000, divided into 10,000 shares of $100 each. The Trustees are: Lloyd Tevis, J. Mora Moss, Lester L. Robinson, Wm. E. Barron and Samuel T. Butterworth. Sitka will be included as a field of operations by the company.

DEPARTURE OF THE ACTIVE.—The steamship Active went to sea at 7 o'clock last evening. She carried away very few passengers. Among those on board we noticed G. Sutro & wife, J. W. C. Rhind, Capt. Inglis, Lieut. Sparshott, J. Bullock, Henry Nathan, sen., J. H. Brown, C. Brooks, Dr O'Brien and C. P. Duane. The number of passengers was 29. We are receiving now about double the number of people who leave the Colony.

CARIBOO.—Our New Westminster contemporaries have dates from William Creek to the 17th. Mining operations had not recovered from the effects of the freshet. The law suit between the Grouse Creek Flume Company and the Canadian Company was still pending. Quartz specimens, richer and more promising than any hitherto obtained, had just arrived on the creek from the Washburn ledge, on Canyon Creek. The arastras will be ready to commence work on the 1st proximo. Confidence in the Canyon Creek quartz ledges is on the increase. Numerous parties have gone out prospecting. Barkerville is growing to be a large town. The Davis and Aurora claims are again paying largely; but operations in other claims are almost suspended in consequence of the Bed Rock Drain being choked with tailings.

FALSE FAIR ONES.—The *Pall Mall Gazette*, in speaking of the false cars for ladies, which report says have lately been introduced, adds:—"This is but another step in the wild race which the female sex is running in pursuit of what Lord Lytton would style 'the deceptive.' It will soon be necessary—indeed it is now necessary—that a man taking a woman to wife should obtain a surgical certificate as to the genuiness of her charms. What must be the feelings of the bridegroom who discovers that he is mated to a partner who wears a false eye, false hair, false cars false teeth, and false bosoms, and whose complexion has been made beautiful forever by the Arabian enamel and Circassian cosmetics of Rachel & Co.?"

THE MADOC GOLD MINES PRONOUNCED A HUMBUG.—The Kingston *Whig* gives the following from a Belleville correspondent as the experience of an Australian gold miner: "A gentleman recently from the Madoc gold region informs me that he met with a miner who had spent ten years in mining operations in California and Australia, and who lately left his home with $250 in his pocket to try the Madoc mining. After eight weeks of prospecting, he stated that the whole amount of gold obtained by him was three grains, value 3 cents, and that he sold some specimens of quartz for the sum of $1; that two dollars were all he had left to carry him back to his family, some 150 miles above Toronto. He was perfectly disgusted with the prospects at Madoc."

IMPORTANT MOVEMENT IN LONDON.—Through private correspondence we learn that prominent British Columbians in London were about to present a petition to Parliament, through Mr Watkin, M. P., praying that the Capital question be settled, and that Victoria be declared the Seat of Government by Imperial statute. The petition is said to meet with favor from the Derby administration, and a strong hope is entertained that the troublesome question which, by remaining open has done and is doing so much injury to the best interests of the Colony, will be speedily set at rest.

THE DINNER to Mr Birch at New Westminster was attended by about 38 guests, nearly one-half of whom were officials. The speeches were highly complimentary to the departing Secretary—more so, we think, than he deserved, for we are unable to discover a single official act of Mr Birch worthy of commendation. The honorable gentleman, it is said, will return to his post in six months time; but we have it on pretty good authority that he will be despatched to some other Colony; which we sincerely hope for the sake of this sadly misgoverned country will prove to be the case.

HAREWOOD—R Dunsmuir, Esq., Manager of the Harewood Mines, and A Hood, Esq., C.E., F.G.S., visited the Harewood coal works on Saturday last, and made a long and minute inspection of the same. The object of the visit it is supposed has more immediate reference to the long-talked of railway than to any alteration in the *modus operandi* at the mine itself.—*Nanaimo Gazette.*

PETTY THEFTS.—Sometime during Tuesday night Mr Fardon had a frame, containing a large number of photographs, stolen from his door. The thief perhaps thought that as Fardon had taken so many pictures in his time, it was no crime to take a few of his by way of retaliation. During the same night, the premises of a family in the suburbs were invaded and a quantity of clothing stolen.

BISHOP HILLS GOING HOME—We learn that Bishop Hills has received a notification from the Archbishop of Canterbury to meet his Lordship at Lambeth Palace in September, and that a similar notification has been extended to all other Colonial Bishops. The object of the meeting is said to be to discuss matters vitally affecting the interests of the Church of England at home and in the Colonies.

THE Olympians are making great preparations for a grand Fourth of July celebration. The New World has been placed on the berth to leave Victoria at six a.m. on Wednesday next, returning on Friday evening. The fare has been fixed at $6 for the round trip. Many of our citizens will, no doubt, avail themselves of this opportunity to visit the Sound.

SUNDAY SCHOOL PICNIC.—Through the liberality of the Rector, the children connected with the St. John's Church Sunday School, will enjoy their annual picnic, on Friday, at Langford Lake. Tickets will be distributed at the Church at 4 o'clock this afternoon. The mammoth 'bus and other conveyances have been engaged to carry the party to the grounds.

SALE OF THE SHIP VORTIGERN.—Mr Main yesterday sold the British Ship Vortigern to Mr J. A. McCrea for $7400. The bidding was quite spirited. It is said by *quidnuncs* that the purchaser has secured the best bargain of the year. The ship is in every respect a fine vessel, and the price obtained includes all the appurtenances.

THE New Westminster Chamber of Commerce—which is composed of a President, Vice-President and Secretary—waited on Mr Birch in a "body," and presented a complimentary address to that gentleman. Mr Birch replied in an appropriate manner, and the "body" withdrew highly gratified.

BOYS' STRAW HATS.—Mr Adams, of Government street, has received a splendid assortment of mens' and boys' straw hats.

CHANGE.—A considerable change in the disposition of the Company's employés is anticipated here during the ensuing week—principally among the outside hands. Mr Wild now being here, the settlement to which we alluded in our last issue will no doubt be brought about forthwith.—*Nanaimo Gazette.*

"DOMINION."—At a dinner of the St. George's Society, at Montreal, Hon. Mr Galt said: The word Dominion is significant to us all. It means we are no longer a colony—no longer a province. Dominion means power, and power involves responsibility.

SPRING GOODS—The assortment of Spring and Summer goods at VICTORIA HOUSE is now complete, the balance of their summer shipment having been received by steamer yesterday and comprises the very latest novelties. *

CROQUET—Lovers of this favorite game will find the necessary implements at VICTORIA HOUSE (corner of Fort and Douglas streets), several sets having been received per Princess Royal. *

ASSAULT UPON AN INDIAN—George Popinberger and Henry Kemper were fined ten dollars yesterday for assaulting with their bunches of fives a Fort Rupert Indian.

THUNDER.—A smart clap of thunder, accompanied by a few great drops of rain, occurred yesterday and cleared the atmosphere, which at one time was insufferably sultry.

IT was reported last evening that a small boat was run down at the mouth of the harbor by the Active, and that all hands were saved.

COLLEGIATE SCHOOL—The annual distribution of prizes to the pupils of the Collegiate School will take place to-day, at 12 o'clock.

THE Enterprise came down from Westminster yesterday afternoon. Among the passengers were Messrs. Barnard, Richardson and Ladner.

REGATTA HATS.—Mr Adams, of Government street, has received, per Princess Royal, a splended assortment of men's and boys' boating and regatta hats.

THE Leviathan, with Mr. Birch, Mr. O'Reilly, and Mr. Bushby, arrived yesterday morning from New Westminster.

Fever and Ague.—Astonishing Cures.—D Egbert Simms, formerly of the Medical College, Philadelphia, and now one of the most popular physicians in Minnesota, writes to a friend in New York, that **Bristol's Sugar-coated Pills** are working wonders in that region, in cases of Fever and Ague, and Bilious Remittent Fever. The following extract from his remarks is published by permission of the gentleman to whom the letter was addressed: "I am not, as you know, much in favor of advertised pills. Most of them are worthless; some dangerous. But **Bristol's Sugar coated Pills** are an exception. No better family cathartic could be desired. There is nothing in the pharmacopoeia, as far as I am aware, that is equal to them. Nor is this all; the antibilious properties of the pills render them a positively invaluable medicine for the bilious remittent and intermittent fevers so common in this region. I have found them exceedingly efficacious in ague and fever. They are tonic as well as aperient, and may be given with great benefit, in cases where drastic purgatives would be dangerous." They are put up in glass vials, and will keep in any climate. In all cases arising from, or aggravated by impure blood, BRISTOL'S SARSAPARILLA should be used in connection with the Pills. Sold by druggists everywhere 415

A Perfume and a Cosmetic.—The surpassing aromatic excellence of **Murray and Lanman's Florida Water** has caused its qualities, as a cosmetic, to be partially overlooked. It is not only the most refreshing and delightful of perfumes, but as a superficial application for the removal of blemishes on the skin, it is unsurpassed. In tropical climates, where the excessive heat causes annoying eruptions, and every sunbeam carries freckles, tan and sunburn in its train, this soothing toilet water is found exceedingly useful for cosmetic purposes. Its delicious fragrance is at o a complete antidote to nervous headache and faintness. ☞ Purchasers are requested to see that the words "FLORIDA WATER, MURRAY AND LANMAN, No. 69 Water street, New York," are stamped in the glass on each bottle. Without this none is genuine. 529

The Responsible Organ.—The stomach is responsible for more evils than were contained in Pandora's Box. Atonic, dyspepsia or simple indigestion, is the first indication, of more than half the diseases enumerated in medical books. Meet it at once with **Bristol's Sarsaparilla**, the most genial tonic and corrective which the botanic kingdom has yet yielded to chemical science. Invigorate the stomach and gently stimulate its gastric action with this famous restorative. Remember that the digestive apparatus is the primary source of vitality from which the whole body draws its supplies, and that **Bristol's Sarsaparilla** is a specific for the disorders that affect it. In all diseases all else, the liver, stomach or bowels, **Bristol's Vegetable Pills** should be used at same time with the Sarsaparilla 516

HOLLOWAY'S OINTMENT AND PILLS.—Rheumatism and Gout.—These purifying and soothing remedies demand the earnest attention of all persons liable to rheumatism, gout, sciatica, or other painful affections of the muscles, nerves or joints. The Ointment should be applied after the affected parts have been patiently fomented with warm water, when the unguent should be diligently rubbed upon the adjacent skin, unless the friction should cause pain. Holloway's Pills should be simultaneously taken, to reduce inflammation and to purify the blood. This treatment abates the violence, and lessens the frequency, of gout, rheumatism, and all spasmodic diseases which spring from hereditary predisposition, or from any accidental weakness of constitution. The Ointment checks the local malady, the Pills restore the vital powers. 16

☞ **The best Remedy for Purifying the Blood** strengthening the Nerves, Restoring the Lost Appetite FRSE'S HAMBURG TEA.

It is the best preservative against almost any sickness, used timely. Composed of herbs only, it can be given safely to infants. Full directions in English, French, Spanish, and German, with every package. TRY IT!

"GENTLEMEN:—"I had a negro man worth $1 200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment; it soon effected a permanent cure."

J. L. DOWNING.

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensible article for Sprains, Soars, Scratches or Galls on Horses. Our men have used it for Barns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT

Foreman for American, Wells Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

ED SEELY

Gloucester, Mass. August 1; 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped steel-plated engravings, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. stamp Demas Barnes & Co. over the cp.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean:
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon permaturely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

Lyon's Flea Powder

Lyon's Magnetic Insect Powder is instant death to Fleas, Ticks, Roaches, and everything of the insect species. Medical.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S
Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, or Erysipelas, Pimples, Pustules, Blotches, Blains and Boils, Tumors, Tetter, and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mercurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "*impurity of the blood,*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures, and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

CURES AND COMFORT FOR THE BED-RIDDEN.

Holloway's Ointment.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lesson inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing th Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assissted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a tough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation promoted, so that both physical and moral energy are increased,

Determination of Blood to the Head.

This is generally occasioned by some irregularity of stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertigo dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine.

The Female's Best Friend

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigerous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion---Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King's Evil
Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms

"Gentlemen:—" I had a negro man worth $1 200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."

J. L. DOWNING.

Montgomery, Ala. June 17th, 1859.

"I take pleasure in recommending the Mexican Mustang Linement as a valuable and indispensible article for Sprains, Soars, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic."

J. W. HEWITT

Foreman for American, Wells Fargo's and Harnden's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced to use your celebrated Mustang Liniment."

ED SEELY

Gloucester, Mass. August 1; 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a shorter time, on man and beast, than any article ever discovered. Families, livery-men and planters should always have it on hand Quick and sure it certainly is. All genuine is wrapped steel-plated engravings, bearing the signature of G. Wm Westbrook, Chemist, and the private U. S. stamp Demas Barnes & Co. over the top.

An effort has been made to counterfeit it with a cheap stone platelabel. Look closely!

Lyon's Kathairon.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean!
It makes the hair rich, soft and glossy.
It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

E. THOMAS LYON, Chemist, N. Y.

Lyon's Flea Powder

Lyon's Magnetic Insect Powder is instant death to Fleas, Ticks, Roaches, and everything of the insect species.
